MINIMIZER PRODUCTS:

CUSTOM MOLDED FLOOR MATS

Whether it is the mud off your boots or your morning coffee, Minimizer Custom Molded Floor Mats keep the cab floors of all major OEM makes and models protected from the daily abuses of demanding jobsites and endless miles on the road.

The engineers at Minimizer use cutting edge technology to scan the interior measurements and angles of each specific make and model semi cab to ensure an exact fit. A retention hook mounted to the base of the stick shift or the driver side floor to keep your floor mats in place. Protect your investment and reduce in cab corrosion, potentially saving you a major headache down the road.

Made out of a proprietary blend of heavy duty thermoplastic, the textured surface will ensure your boots always get a solid grip. The ribbed design channels fluids, road salt, and other debris from interfering with drivers feet.

Our 2 and 3 piece tray systems were designed to be removed easily for quick cleaning. In a matter of seconds you can have your Minimizer Floor Mats rinsed off and reinstalled so you can get your truck back on the road.

Backed by our Lifetime Manufacturer's Warranty, Minimizer Floor Mats are designed to hold up to the daily abuses of the heavy duty trucking industry and will not break or crack under extreme conditions.
