Spicer® U-Joints are the Standard for Premium Performance in the Driveshaft Market.

The proof is in the craftsmanship – and the performance. The seal and bearing surfaces on Spicer u-joints are precision ground to help extend the life of the part. Not only that, every Spicer product undergoes extensive OE engineering and field testing – including the fatigue testing detailed in the adjacent chart – to make sure they’re up to the rigors of the road. That’s what makes Spicer the most trusted name in the industry for more than 110 years.

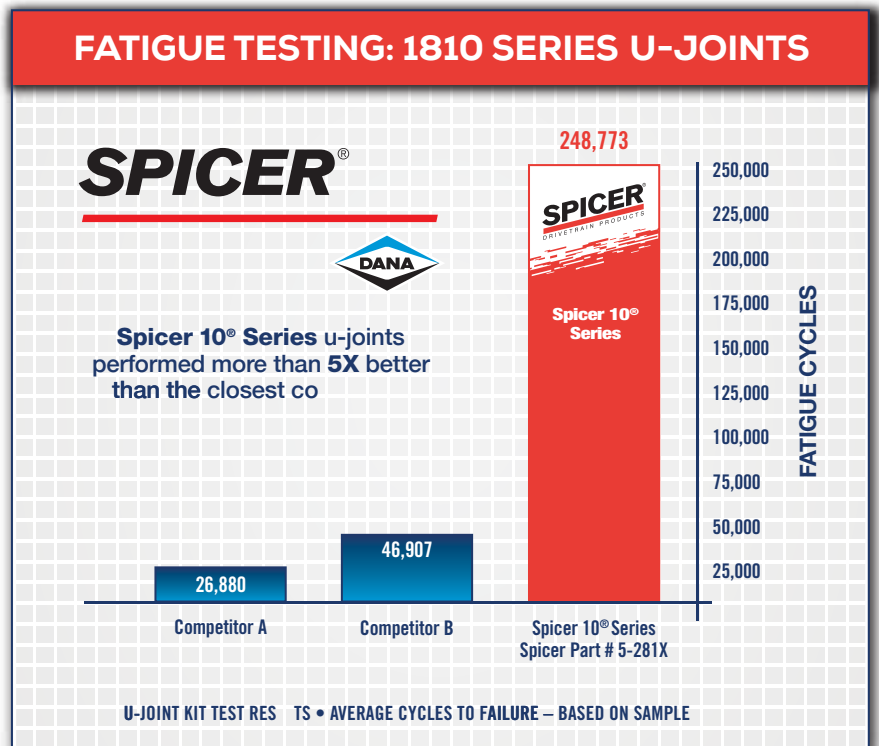

Journal Cross

Forged with high-quality steel, precision heat-treating and case-hardening to very specific levels, ensuring optimal and consistent strength and durability.

Zerks positioned on both sides
Allows for easy and thorough lubrication to maximize the life of the u-joint.

MORE THAN
5X
BETTER THAN
THE CLOSEST
COMPETITOR!

Premium Spicer Life[®] Series U-Joints—Built for the Long Haul.

Spicer Life[®] Series u-joints are head and shoulders above the rest. Superior u-joint design, better lubrication, and a premium sealing package work together to deliver a 30% enhancement to bearing life, versus the competition. While the precision heat-treating, case-hardening, and journal grinding processes are similar to the Spicer 10[®] Series u-joints, the Spicer Life[®] Series u-joints include the following upgrades:

Journal Cross

Engineered with a cold-formed body to ensure better wear and overall strength.

Bearing Cups

Heat-treated for strength; precision-ground and case-hardened for durability.

Thrust Washers

Friction and heat can cause premature failure. The Spicer thrust washer eliminates metal-to-metal contact/friction, prevents wear, and lowers the overall operating temperature.

Premium Viton[®]* Multi-Lip Sealing Package

This premium sealing package includes a Viton[®] multi-lip seal, garter spring, seal guard, and a needle bearing spacer. Keeping the grease in and contaminants out is the key to maximizing u-joint bearing life.

Seal Guard

High-impact material for optimal first-level protection against contaminants.

Lubrication Options

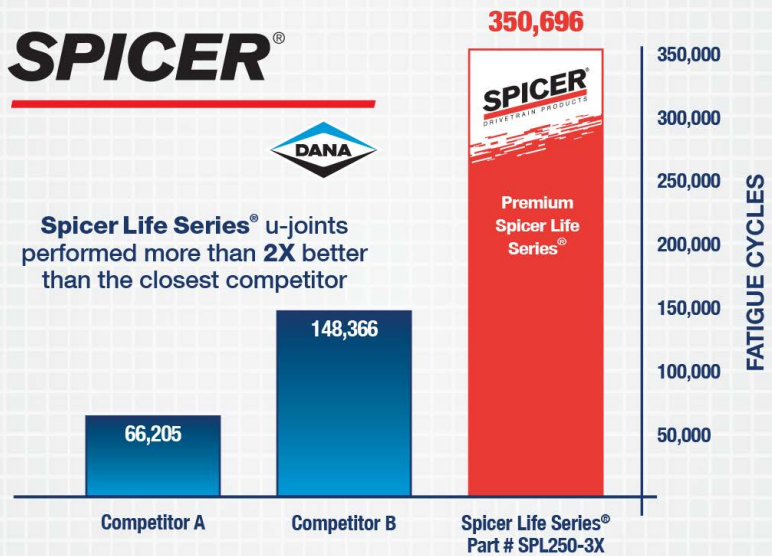

Get longer life and lower maintenance costs for your u-joint with two lubrication options. Choose from a greaseable u-joint or a service-free, lubed-for-life u-joint. Periodic inspection is always recommended.

FATIGUE TESTING: SPL[®] 250 SERIES U-JOINTS

SPICER[®]

Spicer Life Series[®] u-joints performed more than **2X** better than the closest competitor
